Medical Education Winds Down a Year and Gears Up for a New One

- ◆ To successful recruitment of the fellowships
- ◆ MCH Residents and Fellows continue to shine on the national academic platforms
- ◆ Residents' advocacy project
- ◆ Antimicrobial Stewardship Program (ASP) to be started at MCH - Read about it...

Rani S Gereige, MD,
MPH - DIO

This issue of *"Milestones in Medical Education"* comes in a busy time in the academic year. In the past 2 years or so, the academic year has no more downtime or slow times. Program directors are busy preparing for their CCC (Clinical Competency Committee) meetings. This will be followed by the PEC (Program Evaluation Committee) which will result in generating an APE (Annual Program Evaluation)

This alphabet soup of ACGME acronym come floating at the time of the year where programs are getting ready to welcome a new group of enthusiastic residents and fellows. As we proudly graduate our current senior resi-

dents and fellows, we are all preparing for the orientation of the new recruits.

This is an exciting time in Medical Education where new requirements for Graduate Medical Education (GME) are redefining the way we train and evaluate residents and fellows and new Continuing Medical Education (CME) requirements are coming soon on the horizon with focus on innovation in CME.

This issue of *"Milestones in Medical Education"* features important news and events:

- ◆ From successful match season for the Core Pediatric Program

PL2 Class Retreat - 2014

2014 Graduation: A Medical Education Yearly Milestone
ACGME Chair of the Pediatric Residency Review
Committee to give the 2014 Keynote Graduation Address

MCH Department of Medical Education is pleased to announce that **Dr. Joseph Gilhooly, MD** will be the Keynote Speaker for the Ramon Rodriguez-Torres Annual Graduation Grand Round and the Keynote Speaker

for the Class of 2014 MCH Graduation Ceremony.

Dr. Gilhooly is the Vice Chair of Education and the Director of Fellowship Education in the Department of Pediatrics at Oregon Health & Science University. He is a Neonatologist by training and currently serves as the Chair of the ACGME Pediatric Residency Review Committee (RRC). Dr. Gilhooly will present the following topics:

- 1. Faculty Development:** June 5th, 2014 - noon-1:30pm (Board Room) **“Milestones, Competencies, EPAs, and the Next Accreditation System: Help!”**
- 2. Grand Round:** June 6th, 2014 - 8:15am-9:15am - Main Auditorium **“Moving Beyond Duty Hours: How Will We Improve Medical Education?”**

Milestones of MCH Faculty
MCH Faculty Achieve Milestones Nationally

Dr. Lorena Siqueira - Adolescent Medicine Division Chief and Fellowship Director was acknowledged by the AAP, through a letter sent to the MCH Director of Medical Education, for her dedicated volunteer commitment and contributions on the PREP Self-Assessment Editorial Board.

Dr. Lorena Siqueira published the following peer-reviewed articles:

- 1. “Chlamydia Infections in Children and Adolescents.”** Published in *Pediatrics in Review*. April 2014; 35 (4) 145-154.
- 2. “Testing for Drugs of Abuse in Children and Adolescents”** from the AAP Committee on Substance Abuse will be published in *Pediatrics* June 2014 issue.

Congratulations Dr. Siqueira on these important

Milestones

Dr. Jason Katz - Pediatric Cardiology Fellowship Program Director completed in April 2014 the APPD LEAD training; an 18-month Faculty Development training for Program Directors. He received his certificate at the 2014 APPD Spring Meeting in Chicago.

Congratulations Dr. Katz!

Milestones in MCH Public Health Initiatives **MCH to Start an Antimicrobial Stewardship Program**

Antibiotic Stewardship Program

Antimicrobial Stewardship, How Important is It?

attendees) at
Miami Beach
Convention
Center (May
15-18, 2014)**

Antimicrobial resistance is a serious public health concern due to the emergence of multidrug-resistant organisms (MDRO) and the lack of antimicrobial agents in the research and development pipeline. Antimicrobial stewardship refers to coordinated interventions designed to improve and measure the appropriate use of antimicrobial agents by promoting the selection of the optimal antimicrobial drug regimen including dosing, duration of therapy, and route of administration. These efforts are mapped out through an antimicrobial stewardship program (ASP) led by an ID physician and an ID trained pharmacist(s). ASPs have a proven track record to improve patient's outcomes by providing a collaborative, interdisciplinary system for the optimization of antibiotic use through proper antimicrobial drug selection, slowing the emergence of antimicrobial resistance, and reducing antibiotic expenditures. Miami Children's hospital is getting

ready to initiate its first ever **Antimicrobial Stewardship Program**.

The Antimicrobial Stewardship Team will work collaboratively to improve patient care outcomes and safety by optimizing the use of anti-infectives at MCH using the following: clinical interventions, guideline implementation, protocol development, reporting systems, education, and clinical decision support tools. These practices will facilitate improved antimicrobial drug utilization and will lead to a reduction in antimicrobial drug costs and a decrease in the emergence of antimicrobial resistance.

The program at Miami Children's Hospital will initially focus on restricted antibiotics, but the ultimate goal is to expand to all antibiotics to evaluate clinical circumstances and cultural results.

There will be an antimicrobial stewardship program link added to the MCH portal in the months to come. This link will have valuable information on the prevention of multidrug resistant infections. The link will contain our hospital's antibiogram, treatment pathways for disease states such as community acquired pneumonia, sepsis, and clostridium difficile infection, and educational material that focuses on antimicrobial stewardship efforts.

Physicians may become better stewards of antibiotics by taking the following CDC's Vitalsigns steps in account when prescribing antibiotics (please follow link):

<http://www.cdc.gov/vitalsigns/pdf/2014-03-vitalsigns.pdf>

Milestones in Residents' Advocacy and Patient Safety
MCH Pediatric Residents to Lead a National AAP Residents' Advocacy Initiative - Toward Preventing Gun Injuries and Gun Violence

Here at Miami Children's we have been working hard on determining what we would like to accomplish with the **PAVE Advocacy Project**. We have already presented in front of the residency program and sent out e-mails regarding the PAVE Advocacy project and have encouraged incorporating questioning and educating about guns and gun violence during well child visits. We have decided we are wanting to focus on 4 areas thus we created 4 committees. Each committee consists of 2-3 residents who will be working hard to accomplish the respective goals prior to AAP NCE in October 2014. We are in the preparation phase and starting to get all of the material developed and ready for release by our goal dates. Our goal is to begin implementing everything this summer. This way we can involve our new incoming PGY-1 class and we can reach out to parents/students prior to them beginning the school year at their orientations. The committees will be working together as there are goals that overlap and can combine resources to reach out to a larger audience.

The committees and goals are listed below:

1. Community Pediatricians Outreach Committee

- ◆ Create guidelines for local pediatricians on addressing guns and gun safety.
- ◆ Create pamphlet to be given out to families during well child visits.
- ◆ Send information out to local pediatricians in both electronic and hard copies.

2. Local Law Enforcement and Gunlocks Committee

- ◆ Contact local law enforcement about guns, gun safety, gunlocks.
- ◆ Coordinate with other committees to include law enforcement in the lectures/activities regarding gun violence/prevention.

3. School Outreach Committee

- ◆ Create presentation to deliver to parents/children during school orientation.
- ◆ Give lecture to 3 local schools (1 elementary, 1 middle, 1 high).
- ◆ Coordinate with law enforcement committee to involve them in lecture.

4. Resident Education and Cerner Committee

- ◆ Incorporate guns and gun safety into our well child visit tem-

plates on our EMR.

- ◆ Incorporate guns and gun safety information into our hospital-wide newsletter that goes out to all employees.
- ◆ Give lecture and information packets to residents regarding PAVE, guns and gun safety and how to approach the issue during well child visits.
- ◆ Create gun information/gun safety day at Miami Children's which will include a booth display with information pamphlets available to families coming in and out of the facility and residents to answer any questions people may have.

We look forward to the end results and see our hard work pay off!! If anyone is interested in helping out please contact **Naiomi Cohen** or **Gabriela Saca**.

Naiomi Cohen, MD (PGY2)

Gabriella Saca, MD (PGY2)

Don't miss the 6th Annual Residents' and Fellows' Scholarship Day June 13th, 2014. Come support our trainees and view their scholarly work. Over 45 Abstracts in Original Research, Case reports, and QI Projects will be displayed

*Milestones in Recruitment***Successful 2014 Match Season for the MCH Pediatric Residency Program****Welcoming the Residency Class of 2017**

The MCH Department of Medical Education and its Pediatric Residency Program are pleased to announce the 2014 Matched residents who will be joining the MCH Family on June 11, 2014 for orientation. Below is the list of members of the upcoming **Class of 2017**.

<u>Name</u>	<u>Medical School</u>
Aggarwal, Anjali, MD	Lady Hardinge Medical College, India
Alsulami, Abdulsalam, MD	King Abdul Aziz University, Saudi Arabia
Asencio, Jessica, MD	University of Pittsburgh School of Medicine, PA
Balani, Shanthi, MD	Kempegowda Institute of Medical Sciences, India
Burton, Lynsdey	University of Central Florida COM, FL
Bustamante Escobar, Carmen, MD	Universidad de Antioquia, Colombia
Campbell, Melissa, MD	University of Puerto Rico School of Medicine, PR
Cuestas, Jenifer, MD	Creighton University School of Medicine, NE
Dayalan, Vaishali, MD	Tirunelveli Medical College, India
Del Castillo Lemos, Cinthya, MD	Universidad San Francisco de Quito, Ecuador
Gampel, Bradley, MD	Sackler School of Medicine, Israel
Gonzalez Rutmann, Maria, MD	Universidad Central de Venezuela—Luis Razetti, Venezuela
Henley, Kirstin, MD	St. George's University, Grenada
Imagawa, Sayaka, MD	Georgetown University School of Medicine, Washington, DC
Jackson, Jason, DO	West Virginia School of Osteopathic Medicine, WV*
Johnson, Ireal, MD	George Washington Univ. School of Med. & Health Svcs., DC
Kass, Steven, MD	University of Minnesota Medical School, MN
Kissoon, Trisha, MD	Florida Intl. Univ. Herbert Wertheim College of Medicine, FL
Lahiri, Subhrajit, MD	Calcutta Medical College, India
Landeo Gutierrez, Jeremy, MD	Universidad Peruana Cayetano Heredia, Peru
Lopez de Alda, Juan, MD	University of Texas Medical Branch at Galveston, TX
Mannemuddhu, Sai, MD	Osmania Medical College, India
Medina, Annette, MD	Ponce School of Medicine, PR
Miltiadous, Oriana, MD	University of Athens, Greece
Ortega, Camile, DO	Nova Southeastern Univ. College of Osteopathic Medicine, FL*
Reece, Lauren, MD	University of Miami Leonard M. Miller School of Medicine, FL
Ringle, Megan, MD	St. George's University, Grenada
Seblani, Maggie Diane, DO	Lake Erie College of Osteopathic Medicine, PA*

*AOA Match All of the above meet the ACGME/AOA eligibility requirements to become residents.

Milestones in Scholarly Work and Publications

MCH Residents and Fellows Continue to Showcase their Scholarly Work on National Platforms and in Print

Madhuradhar Chegondi, MD (Critical Care Fellow)

Dr. Madhuradhar Chegondi was notified that:

1. His journal review on **“Transfusion Thresholds and Other Strategies for Guiding Allo-genic red Blood Cell Transfusion”** Cochrane Review 2012 4:CD002042 was published on the Pedi-

atric Critical Care Medicine Website in March 2014

2. His case Report on **“Methemoglobinemia”** was published in the Pediatric Oncall Journal

CONGRATULATIONS!

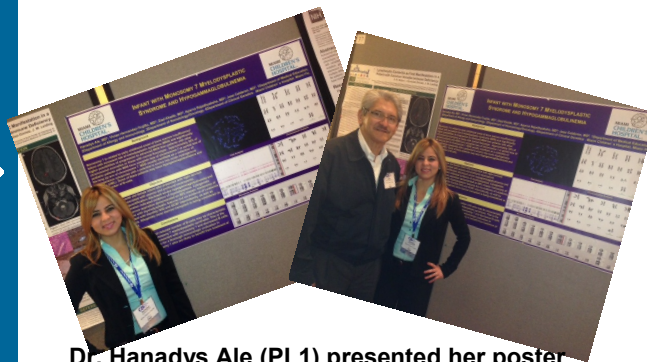

Cristina Figallo Cuenca, MD (PGY1)

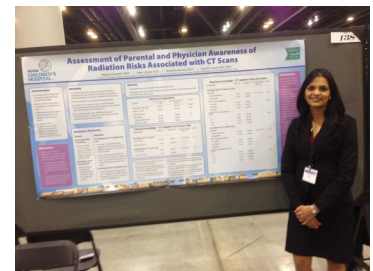

Dr. Cristina Figallo Cuenca was notified that her abstract titled: **“Intestinal Pseudo-obstruction Secondary to Eosinophilic Enteritis with Genitourinary Involvement as the Manifestation of Systemic Lupus Erythematosus in Children: A Case Report”** was accepted for poster presentation at the 2014 Annual Florida Medical Association (FMA) meeting.

CONGRATULATIONS!

Pictures of MCH Residents and Fellows on National and Local Academic Stages

Dr. Hanadys Ale (PL1) presented her poster at the Clinical Immunology Society (CIS) National Conference in Baltimore Pictured with Dr. Calderon

Dr. Mayura Gujarathi (ER Fellow) presented her poster at the Pediatric Academic Societies (PAS) meeting in Vancouver

Dr. Branko Cuglievan presented his research at MCH Pediatric Grand Round. Pictured with his proud family

Congratulations!!!
to the Blue Chip for Service Excellence Award Recipients

Congratulations to Dr. Madhuradhar Chegondi on being one of the recipients of the Blue Chip for Service of Excellence Semi-Annual Award.

Congratulations!!!
to the Blue Chip for Service Excellence Award Recipients

To Teach is To Touch a Life Forever!
