Milestones in Graduation Celebrations	10

This July issue of *Milestones in Medical Education* can be affectionately considered “**The Celebration Issue**”. This issue highlights events and achievements from the months of June & July. This is a special time in the medical education calendar that is bitter sweet. It is a time where we celebrate the graduation of our residents and fellows and the completion of this chapter of their professional journey & on we bid farewell to graduating trainees who have called Nicklaus Children’s Hospital their educational and professional home for the past one, two, or three years or more. This is also a time where we celebrate the on-boarding and welcoming of new classes of residents and fellows in various programs and specialties to the Nicklaus Children’s Medical Education family.

In this issue of *Milestones in Medical Education*, we continue to highlight the many milestones achieved in the past two months by our faculty and trainees:

- ◆ Trainees continue to receive e-Recognitions from patients, colleagues, and staff for their dedication and professionalism
- ◆ The NCH trainees and faculty continue to disseminate their scholarly work in print and on national stages as presentations
- ◆ The Annual Scholarship week was held in late May with great success
- ◆ Graduation events were held and graduates were celebrated by NCH, Faculty, friends, and families

- ◆ The Medical Education Department gives back to the community helping address food insecurity

As we launch a new academic year, we are looking forward to continuing to grow our academic enterprise and contribute to addressing the national and State workforce projected shortages by training the future generations of competent, compassionate, and excellent clinicians. I look forward to continuing to share the great achievements of our trainees and faculty in this academic year in future issues of *Milestones in Medical Education*. Happy reading.

Rani S. Gereige, MD, MPH,
FAAP - DIO

Milestones in Faculty Development

Compliance Corner - Ensuring Accurate Documentation

The Importance of Using Your Own Username

As dedicated Nicklaus Children's workforce members, it is crucial that we maintain the highest standards of patient care, patient privacy, and billing compliance. One critical aspect of this is ensuring that you always document patient information in the electronic health record (EHR) using your own username and password. Leaving workstations unlocked and allowing another workforce member to document under your username and password can lead to serious compliance issues. Documenting under another username in the medical record is strictly prohibited. The Nicklaus Children's policy [Appropriate Use of Information Technology](#) prohibits the sharing of user IDs and passwords, which are only to be used by the workforce member to whom it was issued.

Scribes are required to document using their own username and the responsible billing clinician must review, contribute his / her own content, and sign as the ultimate "owner" of each note.

If a non-physician practitioner (NPP) is acting as a scribe for the physician, the medical record must clearly indicate the NPP is acting as a scribe and not in a clinical capacity.

Documentation of a scribed service must clearly indicate:

1. Who performed the service.
2. The identity of the scribe as the recorder of the ser-

vice performed; and

3. Signed and dated by the billing clinician affirming the note adequately documents the care provided.

Why This Matters:

1. **Compliance Billing Standpoint:** Using another workforce member's username to document patient information can cause inaccurate documentation and billing. This can result in fraudulent claim, incorrect author authentication, financial penalties, and damage to the hospital's reputation. All entries in the EHR must be dated, timed, and authenticated, in electronic form, by the clinician responsible for providing or evaluating the service provided. Regulatory agencies such as the Centers for Medicare & Medicaid Services (CMS) and the Office of Inspector General (OIG) oversee billing practices and can impose severe penalties for violations.

2. **Privacy Standpoint:** Accurate documentation under the correct username and password is crucial for maintaining patient privacy and ensuring the integrity of the medical record. Documenting under another workforce member's credentials is a policy violation of Nicklaus Children's and can lead to potential HIPAA violations. Ensuring that each user documents and accessing of patient information under their own credentials helps protect patient privacy and maintain the trust of our

patients.

Overview of Requirements:

- ◆ Always log in with your own credentials when documenting in the medical record.
- ◆ Never share your username or password with anyone, and do not use another workforce member's credentials to access or document in the system.
- ◆ Clinicians should ensure that all patient documentation is completed under their own username to maintain accuracy and accountability.
- ◆ Always lock your workstation when stepping away to prevent unauthorized access and documentation.
- ◆ Report any incidents of unauthorized access or documentation immediately to the Compliance Department.

By following Nicklaus Children's policies and procedures, we can ensure the accuracy and security of our medical records, protect patient privacy, and maintain compliance with all legal and regulatory requirements.

If you have any questions or concerns, please contact the Compliance Department at 786-624-3838 or by email at Compliance@nicklaushealth.org. For privacy related questions contact the Privacy Department at (786) 624-3500 or by email at Privacy@nicklaushealth.org.

Thank you for your cooperation and dedication to maintaining accurate documentation.

Fellows Research Bootcamp (October 22nd – AM & October 31st - 2024)

Mandatory for First Year Fellows, Opened to All Trainees and Faculty

Milestones in Trainees & Faculty Scholarly Activities

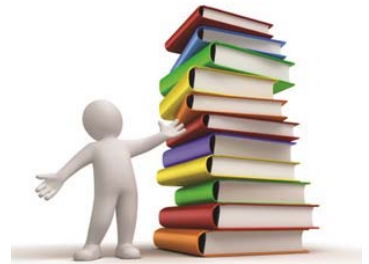

NCH Trainees, Alumni, & Faculty Continue to Disseminate Their Scholarly Work in Print and on National Stages

Dr. Bala Totapally (PCCM PD) along with his co-authors **Drs. Prithvi Sendi, Daniel Torres (Alumnus), and Pooja Musuku (PICU Fellow)** published their manuscript titled: *"Epidemiology, Outcomes, and Trend Analysis of Hospitalized Infants With Respiratory Syncytial Virus (RSV) Bronchiolitis From 1997 to 2019"* in *Cureus*. Congratulations!

Dr. Camila De Avila (PICU Fellowship Class of 2024) along with co-authors **Drs. P. Martinez, P Sendi, J Galvez Silva, O Maher, and B Totapally** was notified that her manuscript titled: *"Hematopoietic Stem Cell Transplantation in Children with Sickle Cell Disease and Thalassemia Minor: A National Database Study"* was accepted for publication in

Pediatric Hematology Oncology. Congratulations!!

Dr. Rani Gereige (Exec Dir of Med Ed & DIO) presented on July 25th 2024 a 90-minutes workshop at the 2024 AAP Annual Leadership Conference in Itasca, IL on the topics of *"Incorporating Equity, Diversity, and Inclusion (EDI) Into Your Educational Content"*.

Milestones in Departmental Community Connections & Advocacy

Medical Education Team Participate in a Health in the Hood Community Connect Event

On **July 23 2024**; the Medical Education Department participated in **Health in the Hood Community Connect event**. Staff members spent the morning unloading boxes of food and packing boxes with different food items and distributing them to the community. This was a wonderful event and an opportunity to help address food insecurity in members of our community.

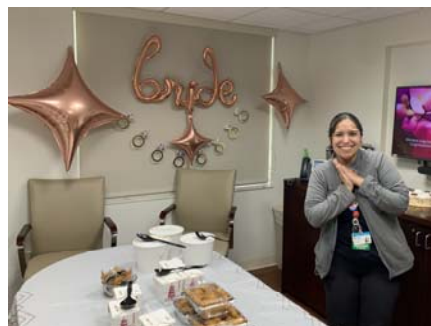

HEALTH IN
THE HOOD

Milestones in Department Wedding Bells

Medical Education & Medical Administration Celebrate Team Member Marriage

Ms Gabriela Martinez (CME Specialist) was celebrated on June 26th by the members of the Departments of Medical Education & Medical Administration for her wedding the week before. **Congratulations Gabby and Dean!!!** Wishing you both a lifetime of Happiness and health

Milestones in Humanism and Professionalism

NCH Trainees Compliments and e-Recognitions

Mark Pilarski,
DO (PGY3)

Dr. Mark Pilarski received a recognition from the mother of a patient he cared for. She commented: *"I am writing to express my wholehearted recommendation for Dr. Mark Pilarski, a resident doctor who provided exceptional care to my son during one of the most challenging periods of our lives... [redacted]... Dr. Pilarski's unwavering support, compassion, and professionalism stood out in ways that we will never forget. From the moment we were admitted, Dr. Pilarski distinguished himself by being consistently engaged, attentive, and present.... he made it a priority to listen intently to our concerns, fears, and questions. His approach was not just to treat our son's illness but to treat us as a family undergoing an incredibly difficult experience. He never made us feel like our opinions or concerns were insignificant. Instead, he provided clear, thorough explanations about the diagnosis, treatment options, and what to expect at every stage. Dr. Pilarski's ability to communicate complex medical information in a way that was both understandable and reassuring was invaluable. He patiently addressed our numerous questions, often going above and beyond to ensure we felt informed and included in the decision-making process. His empathy and dedication provided a source of comfort and strength during a time when we needed it most. Moreover, Dr. Pilarski's commitment to our son's care extended beyond the typical duties of a resident*

doctor. He was there for us not just as a medical professional, but as a compassionate human being who genuinely cared about our son's well-being. His presence was a beacon of hope in a time of darkness, and his efforts made a significant difference in our ability to cope with the challenges we faced.

In summary, Dr. Mark Pilarski is an extraordinary doctor whose exceptional skills are matched only by his compassion and dedication. He has our deepest gratitude and highest recommendation. Any institution would be fortunate to have him as part of their team.

Thank you for considering this recommendation". Congratulations Mark on your display of the iCREATE NCHS Values.

Amsha Reddy,
DO (PGY1)

Dr. Amsha Reddy received an e-Recognition from Ms Carolina Hernandez, RD. Ms Hernandez commented: *"Thank you for making a positive impact on our team".* Congratulations Amsha for a job well-done!!!

Samantha
Shear, DO
(PGY2)

Stephanie
Blount,
(PGY3)

Andrea Perez-
Moscoso, MD
(PGY1)

Drs. Samnatha Shear, Steph-

anie Blount, and Andrea Perez-Moscoso received a recognition from Dr. Ronald Vasquez (PEM Attending). Dr. Vasquez commented: *"I just wanted to commend on an excellent job by the residents on July 19th during the unprecedented Microsoft outage in the middle of a busy ED night shift. Dr. Samantha Shear, Dr. Stephanie Blount, and Dr. Andrea Perez-Moscoso on this evening exceeded my expectations. As EMR outages have become less frequent over time, I have found that they all were able to handle this rare event with excellent efficiency. They not only had thorough knowledge of their patient's medical history, but also of all pertinent clinical data and subsequent management that followed. They kept an excellent line of communication with not only myself, but the nursing staff, and most importantly, the patients and families we served that night. They were all very organized and enthusiastic and adapted well to the old-fashioned way. I am very appreciative of their help during this system outage".* Congratulations to all!!!

Almaha
Alshehri, MD
(PGY3)

Dr. Almaha Alshehri received an e-Recognition from Dr. Stephanie Montarroyos (PHM Attending) for her display of the **NCHS Values of Advocacy & Empathy**. Dr. Montarroyos commented: *"Almaha went above and beyond expectations to advocate for a patient and make sure he had proper supplies for wound care in time for his birthday celebration with his family. She is a great physician and a compassionate human being! I know her patients and families appreciate her efforts".* Congratulations Almaha.

Milestones in Humanism and Professionalism

NCH Trainees Compliments and e-Recognitions (Cont'ed)

Estefany Cadavid, MD (PGY3)

Dr. Estefany Cadavid received an e-Recognition from Dr. Claudia Vega Castellvi (PHM Fellow) for her display of the NCHS Value of **Improving Quality**. Dr. Vega Castellvi commented: **"Medication Safety Champion for the month of May! Thank You for your dedication to medication safety. We hope you continue fostering our hospital's safety culture"**. Congratulations Estefany on a job well done!

Dr. Dianelis Hernandez (Chief Resident) recognized the following residents and provided the following Kudos: **"Your great work is appreciated!!"**. Below is a list of the recognized residents:

- ◆ Maya Hadeed, MD (PGY2)
- ◆ Rashmi Prasad, DO (PGY2)
- ◆ Jocelyn Ye Tay, MD (PGY3)
- ◆ Jessica Valencia, MD (PGY3)
- ◆ Estera Tamas, DO (PGY2)
- ◆ Maria Rodriguez, MD (PGY2)
- ◆ Taimy Falcon-Rodriguez, MD (PGY3)
- ◆ Andrea Martinez Sanchez,

MD (PGY3)

- ◆ Alejandra Cotto, MD (PGY2)
 - ◆ Almaha Alshehri, MD (PGY3)
 - ◆ Becky Li, MD (PGY3)
 - ◆ Milena Fraustro Sanchez, MD (PGY3)
 - ◆ Daniela Castro, DO (PGY3)
 - ◆ Maria Mejia Plazas, MD (PGY3)
 - ◆ Melanie Hew, MD (PGY3)
 - ◆ Kristen Valdes, MD (PGY2)
 - ◆ Jessie Limonta, MD (PGY2)
- Congratulations to all!!

Milestones in Med Ed GME Staff Recognition

GME Fellowship Coordinator Received e-Recognitions

Ms Gloria Montecelo; GME Fellowship Coordinator, received two e-Recognitions from PHM Fellows Drs. Stephanie San Martin & Claudia Vega Castellvi for her **Excellent Performance**.

- ◆ Dr. San Martin Commented: **"Gloria has been an amazing support throughout fellowship. She always makes sure every-**

thing is done on time - she set up my housing for my away rotation and was always available for clarification and guidance. She is incredibly efficient and fast at responding to questions or concerns. I feel very lucky to have her as part of my GME group. Thanks for all you do Gloria!"

- ◆ Dr. Vega Castellvi commented: **"Thank you for always keeping us on track and being so proactive!"**

Congratulations Gloria on an excellent job well-done in supporting the trainees.

Milestones in GMEC Trainees Representation

Do You Know Your Peer-Selected GMEC Trainees Reps?

The following trainees were peer-voted to serve as Reps on Graduate Medical Education Committee (GMEC). The following trainees will join the existing Reps representing their class:

PGY1 Reps:

- ◆ Alexia Perez, MD
- ◆ Andres Vargas Espana, MD
- ◆ Paola Torres DO

Pediatric Dental Residents Rep:

- ◆ Natalia Vazquez Marrero, DMD

Fellows Reps:

- ◆ Elizabeth Torres, MD - Peds GI Fellow (Y3)
- ◆ Ghanavi Kumaran, MD - PCCM Fellow (Y3)
- ◆ Trenton Rivera, MD - PEM Fellow (Y1)

- ◆ Kara Gay-Simon, MD - Peds Cardiology Fellow (Y1)

The newly elected reps will join the existing PGY2 and PGY3 Reps and the continuing Fellows Reps. Congratulations!!!

Milestones in Scholarly Activities

Nicklaus Children's Hospital 15th Annual Scholarship Week - A Success!!

The 2024 **15th Annual scholarship week** was held **May 28 - May 31 2024**. Fifty eight (58) abstracts were submitted this year:

♦ **11 Abstracts in Original**

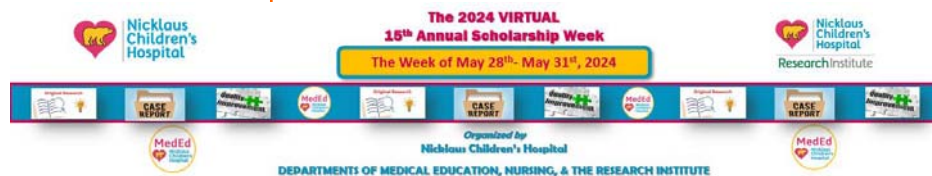

Research (2 by Fellows, 7 by Residents [Medical, Dental and Pharmacy], and 2 by Med Students & Others)

♦ **38 Abstracts in Case Reports** (3 by Fellows and 33

by Residents, and 2 by Medical Students)

♦ **9 Abstracts in Quality Improvement** (1 by Fellow, 6 by Residents, and 2 by Nursing)

Below is the abstract listing:

Underlined Author: Denotes a "Trainee"
* - Denotes a Presenting Author

ORIGINAL RESEARCH

(11 Submissions)

FELLOWS:

"Association of Childhood Opportunity Index with Illness Severity and Healthcare Utilization in Children Hospitalized for Asthma"

Byrne A*; Hall M, Tyriss J, Reyes MA, Perdomo J

"Implementation of Health System-Wide Social Drivers of Health Screening and Referral Process"

Byrne A*; Cardenas G; Steinfeldt M; Santa O; Ledo A; Katz J; Perdomo J

RESIDENTS:

"Efficacy and safety of midodrine in critically ill pediatric patients"
