Adapting to a "New Normal" Academic Year

In this **November** issue of *Milestones in Medical Education* we reflect on the past several months... how much our lives have changed. In March 2020, when the lockdown was instituted, our initial thought was that in few weeks the pandemic will be under control and things would slowly go back to normal. Today; little that we knew, nine months later; we are hitting another wave of the virus, we have not been on a plane in a while, and "staycations" have been one of the most popular vacation destinations in the past year.

As the new 2020-2021 Academic Year rolled in, Medical Education needed to quickly adapt to the **"new normal"** in order to continue to fulfill our academic and educational mission. This adaptation started first with moving all of our educational activities to a virtual format allowing learners to join and safely learn. All gatherings; including lunches and meetings; were changed to a virtual format and lunch is typically served as individually packaged "grab and go" boxed lunch. Graduation, orientation, and on-boarding happened in a hybrid Virtual/Live with socially-distant format.

In the past few months, many of our fellowship programs

completed their recruitment/interview season virtually and the Pediatric Residency Program just began its three months virtual interview season. To prepare for recruitment, the GME department, program directors, and coordinators embarked on an **"immersion" in technology** through multiple activities to prepare for smooth interview season:

- ◆ Held faculty Development on "Virtual Interviewing"
- ◆ Zoom accounts secured for programs
- ◆ Held Zoom session demo to coordinators on Zoom functionality e.g. polling and breakout rooms
- ◆ A virtual video tour of all aspects of the hospital (including some of the offsite locations) was filmed along with a short video about what the city of Miami has to offer
- ◆ Each Program supplemented institutional resources with their own touch from FaceTime tours, to posters, to narrated slides
- ◆ Coordinators spent hours practicing in preparation for their recruitment season so that the program

will put its "best foot forward"

Lessons Learned

Reflecting on this "New Normal", I can think of several valuable "lessons learned":

- ◆ Virtual Learning, Telemedicine, and adapting technology to increase safe meeting attendance are all here to stay
- ◆ When driven to think out of the box and out of our comfort zone, we can indeed innovate and quickly adapt
- ◆ Virtual interviews may be an option to keep post-pandemic for certain purposes e.g. second look
- ◆ But most of all I learned that despite the capabilities that technology has to meet our virtual needs, nothing can replace or mimic the social interactions, personal collaboration, and collegiality that in-person meetings and lectures offer.

I know that we will look back at these newsletter articles as some sort of journaling of where we were in an **unusual 2020!** Happy reading!!

Highlights from the 2019-2020 Annual Institutional Review

What is the AIR?

The Annual Institutional Review (AIR) is an annual look back at the previous academic year in GME to assess the quality metrics of the Sponsoring Institution and its accredited GME training programs using monitoring procedures. The AIR leads to action plans to make continuous improvements. Below are some selected highlights from the NCH GME Annual Institutional Review for 2019-2020 academic year:

GME Dept Profile

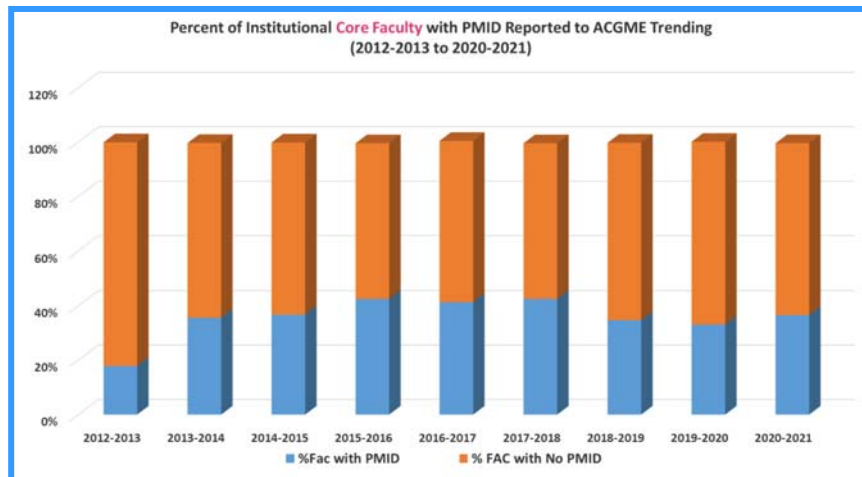

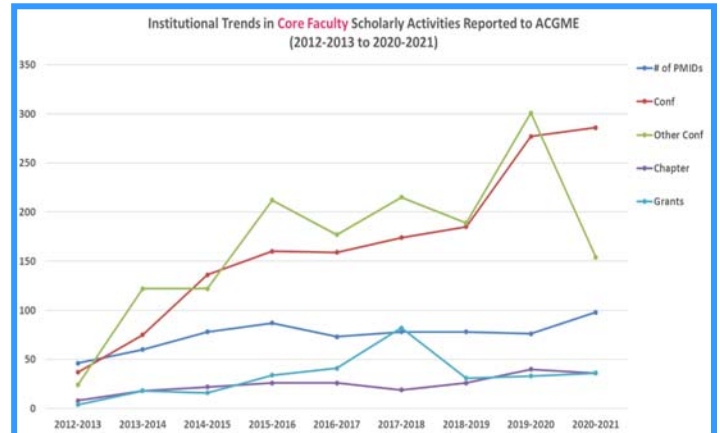

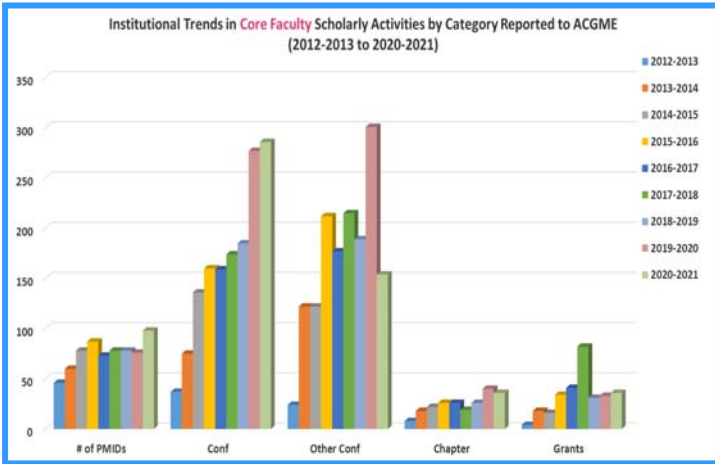

- ◆ Number of Training Programs - 15
- ◆ Number of additional newly accredited programs in 2029-2020 - 4
- ◆ Number of Faculty Development topics discussed in 2019-2020 - 8
- ◆ Number of New / Updated GME Policies - 2

GME Institutional Achievements

- ◆ The department of Medical Education secured in 2019-2020 AY **\$10,543,555.00** in Grants and Contracts
- ◆ Accreditation - NCH GME has **No Institutional Citations**
- ◆ Accreditation - **12 NCH GME Programs have No Citations**, 2 Programs have 1 Citation, 1 Program has 2 Citations, 0 Programs have > 2 Citations.

Dr. Lauren Chiriboga received an e-Recognition from Dr. Marry Vuong; Clinical Pharmacist for her **Excellent Performance**. Dr. Vuong commented: *"Lauren!!!!!! You were an incredible team leader! You kept everyone organized and gave the interns autonomy to learn and grow. You're going to make an amazing pediatrician!"*. Congratulations Lauren for your display of the NCHS iCREATEWay.

Pablo Napky, MD (PL2)

Dr. Pablo Napky received an e-Recognition from Dr. Marry Vuong; Clinical Pharmacist for his **Excellent Performance**. Dr. Vuong commented: *"Thank you for all of your help while on Hospitalist elective. You have grown into an amazing PL-*

2. Your feedback to the interns and organization really helped make the afternoons more smooth! Keep it up DR NAPKY!!!!". Congratulations Pablo on your commitment to excellent performance!!!

Karen Hanze Villavicencio, MD (PL2)

Dr. Karen Hanze Villavicencio received a Recognition from Dr. Marry Vuong; Clinical Pharmacist for her **Excellent Performance**. Dr. Vuong commented: *"Karen you have seriously been such a huge help! While on your Hospitalist elective, you have gone above and beyond in helping the interns. You are appreciated!!"*. Congratulations Karen on a job well-done!!!!

Deidre Anastas, MD (PICU Fellow)

Dr. Deidre Anastas received three e-Recognitions:

1. The first is from Ms Kelsea Campbell; CICU RN for her **Excellent Performance**. Ms. Campbell commented: *"Deidre recently started on the Cardiac ICU but you would think she has been working there for months! Thank you for jumping right in and for already teaching me so much! It has been a challenging week in the Cardiac ICU but working with Deidre has made even the most difficult shifts and little easier. Your patience, attentiveness and knowledge doesn't go unnoticed, thank you!"* Congratulations Deidre for an excellent job!!!

2. The second is from Dr. Jun Sasaki (CICU Attending) for her **Excellent Performance**. Dr. Sasaki commented:

"Busy week with many sick patients. Excellent performance". Congratulations Deidre for an excellent job!!!

3. The third is from Mr. Charles Chong; PICU RN for her **Excellent Performance**. Mr. Chong commented: *"Dr. Anastas displayed her amazing ability to de-escalate a situation and remain focused on the patient's wellbeing. Her ability to multitask these roles ensured the positive outcome to the situation"*. Congratulations Deidre!!! We are proud of your achievements.

Elizabeth Villaverde, MD (PL3)

Dr. Elizabeth Villaverde received an e-Recognition from Dr. Marry Vuong; Clinical Pharmacist for her **Excellent Performance**. Dr. Vuong commented: *"Ely, this month has been challenging to say the least, but you conquered it like a champ! From difficult parents, difficult patients, to just all around busy days, you helped organize and lead your interns to success. What amazes me the most about you is how you are strong and advocate for those who need it. Never change that about yourself. You also have the ability to roll with whatever is given to*

Milestones in Humanism and Professionalism

NCH Trainees Compliments and e-Recognitions (Cont'ed)

you. You are appreciated! Great job on 5T!!!. Congratulations Elizabeth on your display of the NCHS iCREATEWay!!!

Saleem Almasarweh, MD (Peds Cardiology Fellow)

Dr. Saleem Almasarweh received two e-Recognitions:

1. The first is from Ms Alice Latorre; CICU Clinical Coordinator for his display of the **NCHS Values**. Ms. Latorre commented: *"I'd like to recognize Saleem for his continued support towards providing excellent care to our patients while working collaboratively with nursing staff. After several failed attempts at obtaining blood work on a critical patient, utilizing his skills, Saleem obtain blood via arterial stick, so that further analysis could be conducted to drive patient care. Thank you Saleem for your collaboration this weekend"* Congratulations Saleem on your commitment to excellent performance!!
2. The second is from Dr. Jun Sasaki (CICU Attending) for her **Excellent Performance**. Dr. Sasaki commented: *"We had a very sick patient and he organized and executed all the task to resuscitate the patient. He has good insight into critical care and cardiac hemodynamic physiology. Good job"*. Congratulations Saleem on a job well-done!!

Stephen Girgis, MD (Peds Cardiology Fellow)

Dr. Stephen Girgis received an e-Recognition from Ms Alice Latorre; CICU Clinical Coordinator for his display of the **NCHS**

Values. Ms. Latorre commented: *"I'd like to recognize Stephen for his collaboration on Saturday with one of our cardiac patients. Stephen assisted the nurses with moving the patient from one bed to another, taking care to prevent excessive rotation of the hips due to recent ortho surgery. Additionally he assisted the float nurse with inserting a NGT. Thank you Stephen for your collaboration. Your dedication, passion, and empathy for your patients is seen through the care you provide to the cardiac patients."* Congratulations Stephen on your display of the NCHSWay.

Sara Tano, MD (Peds Emergency Med Fellow)

Dr. Sara Tano received an e-Recognition from Ms Brittany Roffman; ED RN for her **Excellent Performance**. Ms. Roffman commented: *"Dr. Tano is one of the best fellows I've had the absolute pleasure to work with, not just in this ER, but any ER. She is always willing to help, always knowledgeable, and never stops trying to help the patients, their families, and her fellow employees. Today she was in the trauma room and was such a great resource, not just with skills, but with the flow of the trauma itself. I cannot wait to continue watching her growth! So thankful we have her in our department!!!!"* Congratulations on your display of dedication, professionalism and teamwork!!!!

Michael Elias, MD (PL1)

Dr. Michael Elias received e-Recognition from Ms. Jeannie Perez; 5T Clinical Coordinator for his **Excellent Performance**. Ms. Perez comment-

ed: *"Thank you Dr. Elias for all of your support these past two days. Thank you for listening to the nurses' concerns and supporting us and especially for advocating for your patients!"*. Congratulations Michael for a job well-done!

Milestones in Hospital Awards

NCH Receives a Prestigious Patient Experience National Award

Nicklaus Children's Hospital Receives the **Press Ganey Pinnacle of Excellence Award®**

Nicklaus Children's Hospital is the recipient of a **2020 Press Ganey Pinnacle of Excellence Award®** in the Patient Experience category. Press Ganey, a leading provider of patient experience measurement, performance analytics and strategic adviso-

ry solutions for healthcare organizations, presents Pinnacle of Excellence Awards annually to recognize clients that sustain high levels of performance over multiple years.

The 2020 Pinnacle of Excel-

lence Award for Patient Experience honors top performers based on achievement on designated patient survey measures from May 2017 to April 2020. These measures include the overall rating of patient families and likelihood of the family to recommend the organization to others..

Milestones in Halloween Residency Celebrations

NCH Pediatric Residents Celebrate the 2020 Halloween

"Under the Sea" is the Theme for the 2020 Halloween Residents' Celebration

Nicklaus Children's Hospital Pediatric Residency Program

and its program leadership celebrated this year's Halloween in a "masked" Under the Sea theme. The theme is very appropriate for Florida and the costumes were creative and

brought joy and fun to the residents' teams and their patients and families. Hopefully next year we will be able to celebrate Halloween in a normal way!!

Milestones in Resident Empathy, Kindness, & Advocacy Efforts

NCH Resident/ Super-Hero Brings Cheers to Patients

Dr. Jennifer Thompson (PL3) has been spreading joy and cheers to our patients by using her free time to dress-up in her Spiderman costume to visit patients. While Dr. Thompson has done this for a while, the su-

perhero became lately a social media sensation and is now in big demand. "Dr. Spiderman consults" have been placed by co-residents, attendings, and nurses on various hospital units. Our patients have been cheered by Dr. Spiderman who brings

moments of joy and comfort. Congratulations Jennifer on a job well-done!! Your humanism, empathy, and advocacy for patients are greatly appreciated and valued.

What the COVID Lockdown Taught Us

#CORONALARNINGS
WHAT THE COVID LOCKDOWN TAUGHT US

THE COVID PANDEMIC HAS BEEN TOUGH, ESPECIALLY WITH THE LOCKDOWN AND WFH. ON TEACHERS DAY, WE RECAP SOME LESSONS THE VIRUS TAUGHT US

- 1** In 2015, no one got the answer right to "Where do you see yourself in five years?"
- 2** It takes a rare skill to work from home and still be late to work
- 3** The expression 'avoid it like the plague' needs to retire because people don't do that
- 4** They said if we stop eating out, we'd lose weight. Quarantine determined that was a lie
- 5** We thought dogs were hard to train. Humans don't know how to sit and stay either
- 6** We realised that our only hobbies were going out to eat and spending money
