(1) These two rows on the Neonatologists' Acute Status Board contain Surveillance Flags: "Alerts" - This row will contain flags such as "Central Lines" (2). "Docs. Needed" - This row will contain two specific flags for missing documentation – the Neonatology H&P and Neonatology Progress Note (2).

Central Lines

**Surveillance**

NICU Patients with central line: 52D 21H 5M

H&P

**Surveillance**

Neonatology H&P Needed: 67D 7H 4M

Progress Note

**Surveillance**

Neonatology Progress Note Needed: 63D 5H 12M

Selecting on the various flags will open a box as shown, that provides the elapsed time for the respective flag. (e.g. This test patient is 67 days, 7 hours, and 4 minutes overdue for a Neonatology H&P or has had a central line for 52 days, 21 hours, and 5 minutes).

Central Lines

**Surveillance** 3

NICU Patients with central line: [52D 21H 5M](#)

Selecting on the blue hyperlinked date/time (3), will open a Surveillance Profile Criteria window to provide further details (4) and any applicable associated data (5) to be viewed with the flag.

**Surveillance Profile Criteria** Close

TOC, Baby 2m 19d M 10/20/2023 Allergy/Adv: Not Recorded

Profile Qualified	Instance
NICU Patients with central line 11/16/23 17:31	1 <span style="color: red; font-weight: bold;">4</span>

**Details**

NICU patients in house with a documented central line.  
Patients will drop from this list when their line is discontinued or they are discharged.

**Associated Data** 5

Order	Result	Date	Specimen
CVC/PICC/Dialysis line status	Monitor	11/16/23 17:30	
CVC/PICC insertion date		11/16/23 17:25	
CVC/PICC insertion time	1726	11/16/23 17:25	

No actions available for NICU Patients with central line.

date of when the Note is being completed. This query can be adjusted as needed to reflect accurate date. When the note is signed, this field begins the clock for when the next Progress Note flag will fire, which is set to the next calendar day.

H&P

### Surveillance

Neonatology H&P Needed: [67D 7H 4M](#)

\*\*\*This flag is not required to document the Neonatology Progress Note\*\*\*

The “H&P” Surveillance Criteria Screen will have an Action available (11) that when selected, will launch the Provider into the respective document, the Neonatology H&P or the Neonatology H&P w Discharge.

\*\*\* This flag is not required to document the H&P \*\*\*

If the patients’ H&P will be scanned into the chart at a later time, or if the documentation will be dictated, this flag will not drop from the Rounds Patients list. The user can manually remove the patient by selecting the Remove From Profile (12) button. When selected, the user will receive the
