WALK-IN PROCEDURES AND APPOINTMENTS GUIDE

There are many X-ray exams that are done as "walk-in" procedures without the need of an appointment (i.e., Chest X-ray, Bone Age, Sinus, Airway, Knees, Elbows, Femur, Feet, Spine, Ribs, etc. (CAT Scan, MRI, Ultrasound, Nuclear Medicine and flouro exams are not included as part of our walk-in service and require appointments.)

Parents will need to register at Patient Access which is located at the entrance of the Hospital. Security will greet the family and direct them to the Patient Access area.

Parents will need to bring the prescriptions, insurance card and referrals/authorization if required by their insurance plan. These documentations must be provided to our Patient Access Registrar at the time of registration.

After registration, they will be directed to the Radiology Department for the X-ray.
