The Golden Issue

Milestones in 50 Years of Accredited Pediatric Education

MCH Pediatric Residency Program Turns **50** Years

This issue of the "Milestones in Medical Education" newsletter is a very special one because it marks and celebrates **half a century** of MCH's contribution to accredited Pediatric Education. It is only natural that we dedicate the major portion of this issue to this important milestone for our Medical Education Department. I am sure you are going to enjoy the milestones that this issue brings to you and the memories that come with it.

For this issue, we went digging into the Department Archives, and as it is the case with a classic Disney movie, we are bringing you "Digitally Remastered" snapshots from the Medical Education "Vault"...

Once Upon a Time...

The Beginning of a Journey...

On **NOVEMBER 5th 1962**, the MCH Pediatric Residency Training Program received its Initial Accreditation by the Accreditation

Council for Graduate Medical Education (ACGME). Prior to that date, MCH (known back then as Variety Children's Hospital) trained residents and graduated residents as early as 1958. Since that time, we came a long way thanks to all our predecessors, mentors, program directors, faculty, directors of medical education, nurses and allied health professionals, and most of all our great teachers of all times... our patients.

The Way We Were...

Some Things Will Never Change...

- ◆ A strong focus on teaching and education
- ◆ A committed faculty
- ◆ Institutional Oversight
- ◆ Graduation (Page 2) - A Tribute to the First Accredited Graduating Class
- ◆ A long list of faculty who trained here... Do you recognize these names??? (Page 3)
- ◆ Contracts (Page 4)
- ◆ LORs, Personal statements
- ◆ Call schedules

- ◆ ECFMG Certificates (Page 5)
- ◆ ABP Competency Assessment (Page 5)
- ◆ Beepers!!!! :-)

Some Things Were Very Different...

- ◆ Work Hours (or the lack of it)
- ◆ Class size
- ◆ Number of Fellowships
- ◆ Salaries (Page 4) - We hope they are different!!!
- ◆ Moonlighting - What was it called? What was the going rate for moonlighting? (Page 6)
- ◆ MCH logo - The way we were seen (Page 7)

Back to the Future...

As we look to the present and take a peak at the future, MCH Medical Education, through its legacy, came a long way... A residency program that is soon to be 84 residents, nine ACGME-Accredited Fellowships, commitment to research, technology, and telehealth. Internationally-recognized services. Competencies, Milestones, EPAs, Next Accreditation

System...

Thank you all for contributing to 50 years of success... **Happy 50th Anniversary to the MCH Residency Program and for many years to come... Celebrating Success!!!**

Rani S Gereige, MD, MPH

Request for Diplomas—From the Director of Medical Education, Dr. Adams:

* **Resident Physician in Pediatrics**

1. Guillermo Jorge Perez
2. Pedro Gilberto Sequeira
3. Hasmik Garparian Simonian
4. Nora Belle Oldham
5. Winnifred F Storey

* **Resident Physician in Pediatric Radiology**

1. P. Matt Platten
2. William Smoak
3. M. William Ross
4. Thomas Tufts
5. Paul Wendel
6. Alexander Kernish

* **Resident Physician in Orthopedic Surgery**

1. Joseph J. Kalbac
2. James B Madison III
3. Newton C McCollough III

* **First Year Resident Physician in Pediatrics**

1. Divaldo Guerra

* **Chief resident Physician in Pediatrics**

1. Nora Belle Oldham
2. Divaldo Guerra

To: Mrs. Ann O'Brien
 From: William Curtis Adams, MD, Medical Director
 Date: June 14, 1963
 Subj: Diplomas

Please make diplomas as follows:
 Resident in Pediatrics

- Guillermo Jorge Perez ✓ April 10, 1961 - June 30, 1961
- Pedro Gilberto Sequeira ✓ July 1, 1961 - June 30, 1963
- Hasmik Garparian Simonian ✓ July 1, 1961 - June 30, 1963
- Resident in Pediatric Radiology
- P. Matt Platten ✓ July 1, 1961 - September 30, 1961
- William Smoak ✓ July 1, 1962 - September 9, 1962
- M. William Ross ✓ September 10, 1962 - November 18, 1962
- Thomas Tufts ✓ November 19, 1962 - January 27, 1963
- Paul Wendel ✓ January 28, 1963 - April 7, 1963
- Alexander Kernish ✓ April 8, 1963 - June 30, 1963
- Resident in Orthopaedics
- Joseph J. Kalbac ✓ March 1, 1962 - February 28, 1963
- James B. Madison, III ✓ July 1, 1962 - June 30, 1963
- Newton C. McCollough, III ✓ July 1, 1962 - June 30, 1963

Medical Education Department
 Diplomas as follows:

- 1 Divaldo Guerra
- 1 First Year Resident Physician in Pediatrics
- 1 July 1, 1961 - June 30, 1962
- 1 Divaldo Guerra
- 1 Chief Resident Physician in Pediatrics
- 1 July 1, 1962 - June 30, 1964
- 1 Nora Belle Oldham
- 1 Resident Physician in Pediatrics
- 1 July 1, 1962 - June 30, 1963

Medical Education Department
 Diplomas as follows:

- 1 Nora Belle Oldham
- 1 Chief Resident Physician in Pediatrics
- 1 July 1, 1963 - April 30, 1964
- 1 Winnifred F. Storey, MD
- 1 Resident Physician in Pediatrics
- 1 July 1, 1963 - June 12, 1964

Please provide a brief description of the applicant's personal characteristics as you have observed them. Such information can help the Board's examiners to make a fair judgment as to whether the applicant's performance on the oral examination is an accurate reflection of his/her real abilities. Comments regarding behavior under stress, shyness, self-confidence, ability to verbalize thought processes, decision making habits and other characteristics will assist the examiners in perceiving the person as you do. (Please type or print)

IMPORTANT SEE REVERSE SIDE

Each component of pediatrician competence has been identified below. For each component, check the number that best describes applicant's performance in relation to the characteristics listed.

1 = Excellent 2 = Good 3 = Fair 4 = Marginal 5 = Poor 6 = Inadequate 7 = Unacceptable 8 = Unacceptable 9 = Unacceptable

1. Gathering Data by History 1 2 3 4 5 6 7 8 9
Follows format of traditional checkup is fully - Direct interview toward pertinent information - Leads to include social family and developmental history routinely - Accepts facts as received - Accepts chronological records

2. Gathering Data by Physical Examination 1 2 3 4 5 6 7 8 9
Alerts patients by clumsy or abrupt approach - Shows little concern for patient's comfort - Performs cardiac or incomplete examination - Fails to verify findings

3. Gathering Data by Laboratory Studies (Include Radiographs) 1 2 3 4 5 6 7 8 9
Uses laboratory indiscriminately - Is inaccurate of patient's comfort in selecting lab studies - Is unaware of the influence of timing and sequence on lab studies - Fails to interpret lab results correctly - Technically clumsy

4. Assessing Data and Arriving at a Diagnosis 1 2 3 4 5 6 7 8 9
Leaves part of data in formulation, a diagnosis - Awaits results, a conclusion despite a reasonable data base - States problem in incorrect or confusing terminology

5. Managing Problems and Maintaining Health 1 2 3 4 5 6 7 8 9
Performs technical therapeutic procedures poorly - Is slow to recognize emergency situations - Persists in original course despite indications to change - Rejects or minimizes importance of patient education - Fails to purchase social aspects of patient care

6. Interpersonal Relationships With Patients and Families 1 2 3 4 5 6 7 8 9
Demonstrates inappropriate responses to patient illnesses and families - Lacks communication skills

7. Interpersonal Relationships With Other Members of the Health Team 1 2 3 4 5 6 7 8 9
Does not request assistance when needed - Fails to recognize professional skills of others - Is unable to use or take advice graciously

8. Work Habits and Personal Qualities 1 2 3 4 5 6 7 8 9
Does not accept responsibility - Is unaware of own limitations - Demonstrates personal dishonesty - Is unable to cope with personal or professional problems - Fails to preserve confidentiality of medical information

9. Demonstrates personal honesty - Seeks to update knowledge in the interests of current patients - Demands status appropriate intensive effort, commitment - Is able to make decision promptly and appropriately when there is risk of uncertainty or error must be accepted

IMPORTANT Please complete the OVERALL CLINICAL COMPETENCE rating below. The Credentials Committee will review individually all Overall Clinical Competence ratings of 1, 2, 3 and 4.

Circle the one number that best describes the applicant in terms of his/her ability to care for children independently in the average practice situation in the U.S. or Canada. (Also, check the component of competence above, as well as your estimate of the applicant's grasp of pediatric knowledge. In these phrases, "man" is defined as identify, the nature of the problem, determining methods of evaluation or diagnosis, its problem and carrying out management plans - including the appropriate and timely use of consultants.)

1 - Unable to manage many pediatric problems including the most routine ones
2 - Able to manage only the most routine problems in pediatrics
3 - Able to manage the common problems of pediatrics adequately
4 - Able to manage most routine problems in an adequate way
5 - Able to manage almost any pediatric problem in a highly effective manner
